ABOUT THE CONFERENCE

The Supply Chain Digitalization Conference 2024 brings together supply chain and technology innovators to push forward a complete digital transformation within the supply chain. This platform will include the entire Supply Chain and Procurement, Transportation and Logistics industry together with Manufacturer, Retail, Consumer Goods, Chemical, Oil & Gas, Food & Beverage, Pharmaceuticals, Govt. Officials, Transportation & Logistics providers, and many more to discuss the latest developments and best practices in the industry.

The aim of this event will be to unravel the complexities in supply chain management, focusing on the challenges posed by intricate networks, limited technology use, and trust issues with suppliers. Our goal is to highlight the significance of "visibility" in understanding and navigating these challenges effectively. Especially in times of major disruptions, enhancing visibility becomes a foundational strategy for building resilience. Join us to explore ways to simplify complexities and leverage technological advancements, enabling businesses to establish transparent and interconnected supply chains. With a focused 2-day agenda, the event seeks to foster in-depth discussions on strategies, applied knowledge, and technological challenges within supply chain and procurement operations.

Medical supply chain projects

- Humanitarian aid and relief projects are categorized as specialized supply chains. Firstly, these projects are triggered due to pandemics, emergencies, and catastrophic events such as hurricanes and earthquakes.
- In addition, geopolitical tensions in specific regions also push for a need to supply various medical products to intricate and challenging-to-reach destinations.
- Overall, orchestrating medical supply projects from end-to-end execution involves meticulous supply chain planning, procurement, and logistics execution. I have work experience of more than 5 years in leading medical supply projects. I will be more than jubilant to share practical insight and how to navigate during the execution of projects.
