ABOUT THE CONFERENCE

OGAD2023 creates an Opportunities to boost Profitability and Strategies to Maximize Efficiencies in Oil and Gas Production.

This conference brings together key players of the oil & gas industry, to probe and explore winning strategies and technologies, by means of digitalization in dealing with the current and future challenges of the upstream, midstream and downstream sector.

This event is a platform bringing the entire Oil and Gas Sector together along with IoT, AI/ML and digital solution providers to discuss the latest developments and best practices for digital transformation in the industry.

Digitalization including AI, IoT and Blockchain has made a huge impact on helping operating companies improve operational efficiency, eliminate unplanned downtime, improve safety, and reduce overall costs.

With an intense **2 days** agenda, the conference seeks to expand in-depth discussions, techniques and applied knowledge along with technological challenges of oil & gas digitalization. You will gain insights from the best in the industry and make lifelong friends.

Moving forward with the success of the inaugural conference, the Oil and Gas Automation and Digitalization will once again hold a promising meeting place for the industry, through its interactive sessions, highlighting the latest Digital Developments in the oil and gas.

Conference Agenda Keytopics

- ★ Why is it time to **invest in digitalization** – AI/ML, IoT, Big data Analytics, Wearable technologies and Cyber-security?
- ★ Emerging Digitalization technologies into the oil and gas and its **impact and performance**
- ★ Best practices and **case studies of digitalization** to business objectives and technology alignment
- ★ **A strategic roadmap** for E&P's to assess every operation and identify digital leaps for achieving specific business objective
- ★ **Leveraging digitalization**, reduce unplanned downtime and **optimize maintenance processes** through real time application
- ★ **Opportunities and Challenges** in – Robotics, Pipeline transportation, Smart refineries
